OUR MISSION

GreaterGood.org is an independent 501(c)(3) charitable organization devoted to improving the health and well-being of people, pets, and the planet. In FY17-18, in addition to running 12 Signature Programs, we granted $93,389,548.20 in cash and in-kind product to charitable partners worldwide with the best-in-class projects and programs working in:

Hunger, food insecurity, and peaceful co-existence
  Women’s health and well-being
  Children’s health and well-being
  Children’s literacy and education
  Conservation science
  Animal welfare

Financial Summary
  JULY 1, 2016 - JUNE 30, 2018

Leadership & Special Donors
  OUR SENIOR LEADERSHIP, BOARD OF DIRECTORS, AND A RECOGNITION OF SOME OF OUR SPECIAL DONORS
A Letter From Our CEO

Dear Friends,

It’s been a momentous two years of tremendous growth and forward movement. Together we celebrated 10 years of Giving Where It Matters, and together we weathered 3 devastating hurricanes, sweeping wildfires, and an earthquake. Together, we have never worked harder to protect people, pets, and our planet.

Here are just a few of the things we accomplished together from July 1, 2016, through June 30, 2018:

• Created the first National Feed a Rescue Pet Week, and crossed the quarter-billion meal mark and the 2,000th truckload of food delivered via our Rescue Bank program.
• Completed our first major land conservation purchase in the Payunia Province of Argentina totaling 65,000 acres and home to the critically endangered Andean Cat.
• Completed 24 shelter renovations across 9 U.S. states and Mexico City, Mexico with Rescue Rebuild, improving the lives of more than 41,000 shelter animals and the people who care for them.
• Transported thousands of homeless animals to safety from shelters where they would be euthanized to shelters where many of them were quickly adopted into their forever homes.
• Completed 9 biodiversity expeditions into Mexico and launched a new scholarship program through Madrean Discovery Expeditions.
• Piloted “Project Peril”, a program dedicated to saving endangered species.
• Funded many of our scholarship girls for a second or third consecutive year, and saw our first Senior Class at the LKM school in Haiti.
• Funded supplies to provide over 1 million meals for hungry, food insecure Americans with partner Food Recovery Network.
• Provided care packages to over 10,000 active duty veterans.

It’s thanks to our wonderful donors and partners that we are able to have a real impact for people, pets, and the planet. We can’t wait to see what we can accomplish together in the upcoming years.

Sincerely,

Liz Baker, CEO
PROTECTING
PEOPLE
EDUCATION

GreaterGood.org supports best-in-class education programs across 40 countries from Afghanistan to Zambia. Promoting literacy and education for all, with an emphasis on the most vulnerable populations, we seek to surmount barriers to education and improve education outcomes.

During FY17-18, we launched Girls’ Voices, our program dedicated to empowering girls through media-training and scholarships.
We envision a world in which every child can get to school safely, nourished and ready to learn, have access to quality material and teachers, and graduate with their peers.

GENDER
Girls face additional barriers to education, including discrimination, child marriage, and gender-based violence. GGO granted full scholarships to 75 scholars across 10 countries over the last three years, fully funding 86 girls in FY17 and 100 girls in FY18. By FY18 our Safe Ride signature program was transporting 150 girls to and from school safely, every school day.

HUNGER
Well-nourished students are ready to learn. Our hens program provides high-quality nutrition through protein-rich eggs to students at two schools in rural Haiti, ensuring 1 hen per student in Matènwa FY17. GGO funding provided over 1 million meals to Burmese refugee children in Thailand through partner Mae Tao Clinic, as well as 5,214 school meals across FY17-18 at the fourth largest school in the poorest part of the Philippines through our partner In-Visible.

CONFLICT
As the horrors in Syria escalated, GGO funding helped support 1,400 Syrian children living in refugee camps in Jordan with art workshops and schooling in safe spaces through our partner Amal ou Salam.

ACCESS
Prior to GGO funding, not a single secondary school existed on the island of La Gonave, Haiti. In 2018, the first class graduated, and 93% of the graduating class has passed the difficult state exam.

UNSAFE WATER
Poverty is the underlying specter across many education barriers, and access to potable water is every child’s right. In FY17 and FY18, GGO funding provided 304,967,912 liters of clean water and 550 clean water filters to families across eight countries.
From a Graduate’s Perspective:

“My name is Fania Bijoux. I am 19 years old and I just completed the 13th grade. I feel very proud to be graduating from MCLC, where I started my schooling in kindergarten. Education is a weapon that can change people’s lives, and education is the basis of development in all developed societies. Every time things got hard, I doubled my efforts. I don’t despair because I have a dream to accomplish great things.”

As part of our commitment to education access, GreaterGood.org fully funded the addition of the first complete secondary school through grade 13 on the island of La Gonâve, Haiti, including classrooms, teacher salaries, and school supplies.

In 2018, the first ever 13th grade class of 10 students graduated!

We are incredibly proud of this group of trailblazing students. They are not only the first in this school to graduate, they are the first in their families to graduate from secondary school. The example set by these graduates is already influencing the next generation and will have lasting, positive impact.

Our First Graduating Class in Matènwa
SIGNATURE PROGRAM Girls’ Scholarships

Every child deserves a high-quality education. Yet girls still face cultural, economic, and social barriers to schooling. Today, more than 130 million girls are not in school. When a girl attains a quality education, she is more likely to marry later, have fewer and healthier children, and earn an income that she typically invested straight back into her family and community.

IN FY17 & FY18,
WE GAVE OVER $52,000 IN SCHOLARSHIPS
TO 324 GIRLS
IN 17 COUNTRIES

A Tale of Two College Graduates

Arlene and Jesel have been GreaterGood.org Scholars in the Philippines for the past three years, and in March 2018, both graduated. Both scholars passed their board exams in September and are now licensed teachers - ready to give to the next generation.

It was a long road for both students. Jesel and her family lost their home to Super Typhoon Haiyan in 2013. GGO scholarships ensured this young woman could finish her education - the first in her family to graduate from college.

Arlene is one of 14 children orphaned after the death of both parents. Survival for orphaned girls is often bleak and harrowing. To stay focused on her education is a testament to Arlene’s will and academic prowess.

In her own words: “The scholarship(s) greatly helped me in my studies...providing my tuition and other school fees, books, uniforms, projects, school supplies, my daily allowance and transportation, and school contributions. Thank you for investing in my education. I honor you by trying my best.”

Arlene’s sister Donnalyn is currently a GGO Scholar.
SIGNATURE PROGRAM A Safe Ride to School

Violence against girls and women who pursue schooling is one terrifying barrier to education. After the brutal attack on female students in Kandahar Province, Afghanistan in 2009 we purchased three buses to safely transport girls to and from Mirvais Mena School and the Zabuli Education Center in Deh Subz. Ongoing funding keeps the buses running smoothly and pays for drivers and fuel.

“Education is like a light; you can see the path you are going on in the dark.”
- SADIA, MIRWAIS MENA STUDENT

Project Focus: Menstrual Hygiene

Where families live on less than $1 per day, daughters can miss up to five days of school every month during their menstrual cycle - just for lack of hygiene supplies. GGO is partnered with groups in Kenya, Malawi, and Uganda to distribute reusable pads to girls in need by funding local women-run businesses to produce these essentials.
Girls' Voices ignites creativity, resilience, and leadership in girls worldwide by giving girls the tools and training to take digital media storytelling into their own capable hands.

We partner with grassroots organizations engaged in girls’ education and train youth leaders to effectively support girls to create digital media projects. Partners also identify a key barrier to girls’ education – transportation, tuition, books, tutoring – and administer scholarships to help the girls surmount these barriers.

The Girls’ Voices program is supported by the Klintworth Family Foundation.
Health and hunger initiatives are often poverty initiatives. Alleviating the effects of poverty and correcting the conditions leading to poverty result in better health outcomes for individuals, families, and communities.

We focus far and wide on projects and programs that address chronic hunger and malnutrition, and disease prevention and treatment.

Pictured: San San (in blue) was born at the Mae Tao Clinic in Mae Sot, Thailand. She was inspired by the nurses that helped care for her and her mother, and she decided to join them. GGO donors have funded two of her three years of nursing school so far. She gets hands-on training at the Mae Tao Clinic and is already helping women in her community.

Featured Projects

**Clean Cookstoves:** We work with 6 partners to provide efficient, clean cookstoves in Darfur, Uganda, Nigeria, and Guatemala, lessening violence against women and girls, reducing particulates, and saving trees. In FY17 and FY18, we distributed 380 clean cookstoves to families in these countries.

**Coat & Shoe Distributions:** Protection from the elements prevents injury, illness, and even death. GGO works with 3 partners to provide these essentials to vulnerable children in Guatemala, Haiti, and the U.S. In FY17 and FY18, we distributed 5,355 coats and 13,045 shoes.

**Alzheimer’s, Autism, Diabetes:** GGO grants also support care and research for Alzheimer’s patients, children on the autism spectrum, and children with diabetes. In FY17-18 we funded 18 groups across the U.S., Mauritania, and the Navajo Nation.
We funded 1,584 mammograms and ensured 647 safe births during FY17-18, for women around the world.

GreaterGood.org grants for women’s health focus on early detection of breast cancer, access to quality treatment, and ongoing breast cancer research. We’re reaching women throughout the United States and as far away as Sierra Leone. If caught early, the five-year survival rate for breast cancer is 96%.

Protecting Mothers & Newborns

Our partnership with Mae Tao Clinic on the Thai-Burma border in Thailand is a special one spanning a decade and a half. The facility and its dedicated staff serve Burmese refugees with everything from a school to backpack medics who travel into Burma to provide medical assistance. For years we’ve supported their “Dry Food Program” for students at the school (see Hunger Alleviation), helped fund a new medical facility, and are also supporting their birthing center. As little as $43 sponsors a safe birth thanks to a matching gift, and $6 provides one Burmese newborn with a Thai birth certificate that opens otherwise closed doors to schooling, healthcare, and legal work in Thailand.

In her own words:
“This was the first time I gave birth at a clinic and I am very grateful. The staff were very nice and reliable especially when my son became febrile.”
Hunger Alleviation
GreaterGood.org fights hunger around the world - and right here at home. From feeding vulnerable populations, to providing proper nutrition in schools and curbing food waste, GGO funding helps address both root problems and painful symptoms.

NUTRITION IN SCHOOLS
Education is one path to breaking the cycle of poverty, and a nourished child learns better in school. GreaterGood.org funding supported children at Mae Tao Clinic in Thailand, reaching the 1 million meals mark in June 2018. In FY18 alone, GGO funding covered close to 6 months of meals for all of MTC’s students.

HEALTHY FAMILIES
Long-time partner and grant recipient Gardens for Health is ending chronic malnutrition across 8 districts in Rwanda by empowering families to grow and eat nutritious food. They’ve seen a positive growth trajectory in 60% of all children participating in programs GGO funding supports.

FOOD RECOVERY
As of June 2018, GGO funding has supported the recovery and redistribution of 1 million meals to hungry people across the U.S. Our long-time partner, Food Recovery Network, unites college students to fight food waste and hunger by recovering food from campus dining halls that would otherwise go to waste and donating it to people in need.

SIGNATURE PROGRAM: OPERATION SANDWICH
RELIEVING FOOD INSECURITY IN THE U.S.
In partnership with Northwest Harvest, GreaterGood.org’s signature program Operation Sandwich addresses food insecurity by engaging volunteers to prepare sandwiches every week for the homeless and working poor. During FY17 and FY18, we provided over 55,000 sandwiches to low-income and homeless individuals.
GreaterGood.org works with 17 strategic partners who provide support for reintegration, PTSD, and other physical and emotional issues. GGO funding provides nutritious meals, housing, and more.

Grant funding also pairs veterans with companion and service dogs, often saving two lives: once-homeless dogs and veterans in deep need.

**DURING FY17-18,**

**WE FUNDED OVER 190,000 MEALS FOR VETERANS**

**WE FUNDED 21 HOMELESS VETERANS INTO HOUSING**

**WE FUNDED 122 CANINE-VETERAN MATCHES**

GreaterGood.org’s donors also provide comfort and joy to deployed active-duty service members by funding care packages filled with familiar snacks, favorite hygiene items, letters from appreciative civilians, and memories of home.

**WE FUNDED 2,883 CARE PACKAGES**

**SERVING 28,830 ACTIVE-DUTY SERVICE MEMBERS**

**WE HELPED 21 HOMELESS VETERANS INTO HOUSING**

Pictured: Andrea, a Veteran, with her service dog, Sake. They were matched by our partner, Patriot PAWS Service Dogs.

**WE FUNDED 190,000 MEALS FOR VETERANS**

**Pictured: Andrea, a Veteran, with her service dog, Sake. They were matched by our partner, Patriot PAWS Service Dogs.**
Working Dogs

Around the world and across the U.S., working dogs are often on the front-lines protecting the health and well-being of people. From police K9 officers, to courageous canines who assist in conservation activities, to courthouse therapy dogs, to U.S. military and contractor working dogs in Afghanistan, Iraq, Egypt, and elsewhere - these deserving dogs need our care and protection, too.

Pictured: GGO grants helped fund this ballistic vest for K-9 officer, Merlin. Without GGO, Oak Grove PD wouldn’t have the budget to protect its K-9 officers.

Rescue Missions

On deployment, our active-duty troops will sometimes rescue stray cats and dogs. When they return home, they often have to leave their “battle buddies” behind. We help our troops avoid the trauma of leaving their buddy behind by rescuing these pets and flying them back to their new homes.

During FY17 and FY18, we assisted in 52 rescues.

Kittens Jak and Miri were two of these rescues. An airman found the orphaned kittens in bad shape, sickly and tiny, in the woods behind a complex in Guam. Both kittens had devastating eye infections. While Miri recovered, Jak eventually had to get his eye amputated (pictured to the right).

The airman who found the kittens fell in love with the sweet cats and took both of them home with her to South Dakota when she returned from deployment.
DURING THE DISASTERS OF FY17 & FY18, WE HELPED RESCUE OVER 1,000 PETS

WE GAVE OVER $9.3 MILLION IN CASH & IN-KIND GRANTS

WHERE DID THE MONEY GO?

TO HELP COUNTLESS PETS WITH:
- 2,649,779 lbs of pet food
- 79,640 doses of vaccines and medicine
- 168,728 lbs of cat litter
- 3,784 crates
- 12,247 bottles of cleaning supplies
- 69 flights to transport over 1,009 pets to safety
- 2 Rescue Rebuilds at Florida shelters

TO HELP PEOPLE IN DISASTER ZONES WITH:
- Distribution of medical equipment
- Floodwater rescue team support
- Fuel to transport volunteers to aid in recovery
- Humanitarian aid to Puerto Rico and USVI

WE HELPED RESCUE OVER 1,000 PETS
OVER 221,000 MILES
ON 69 FLIGHTS TO SAFETY

DISASTER RELIEF & RECOVERY

In the Fall of 2017, three devastating hurricanes tore through Texas, Louisiana, Florida, Puerto Rico, and the Caribbean Islands. A strong earthquake shook Mexico City. Fierce and deadly wildfires displaced residents and left wildlife in crisis in Northern California, and a second set of fires ravaged Southern California later that same season. 45,748 individual donors and dozens of corporate donors contributed generously to help GGO be There When It Matters™.

In the Fall of 2017, three devastating hurricanes tore through Texas, Louisiana, Florida, Puerto Rico, and the Caribbean Islands. A strong earthquake shook Mexico City. Fierce and deadly wildfires displaced residents and left wildlife in crisis in Northern California, and a second set of fires ravaged Southern California later that same season. 45,748 individual donors and dozens of corporate donors contributed generously to help GGO be There When It Matters™.
ANIMAL WELFARE

GreaterGood.org runs several Signature Programs and supports best-in-class programs in over 30 countries across 6 continents, and nearly every state in the U.S. We fund thousands of partners on the ground working every day to improve outcomes for homeless shelter pets and other domesticated animals, and for wildlife, including keystone species and apex predators - the incredible gamut of biodiversity across our marvelous planet.

WHERE WE WORK

Our efforts in animal welfare are focused in these countries: Australia, Borneo, Cambodia, Cameroon, China, Colombia, Costa Rica, Gabon, Greece, Guatemala, Guinea-Bissau, India, Indonesia, Ivory Coast, Kenya, Korea, Kurdistan, Malawi, Mexico, Nepal, Pacific, Atlantic, and Indian Oceans, Peru, Romania, Russia, Serbia, Sierra Leone, South Africa, Tanzania, Thailand, United States, Vietnam, Zambia.

Pictured: Addie, a sweet pup with leg braces. She was able to get the specialized care she needed thanks to the money her rescue saved on food due to donations through our Rescue Bank Program.
During FY17-18, we provided 132,069,200 meals, 540,550 pounds of cat & dog treats, 5,580 vaccines, 50,830 parasite prevention treatments, 1,981,962 oral hygiene chews, and 33,634 toys to 47 shelters.

With a focus on domestic, smaller and less visible rescue groups, we’re providing nutritious food to shelters across the nation, including all requested need in Puerto Rico post Hurricane Maria. Donated food means shelters use their funds for other needs, like specialized veterinary care.

“No matter how well funded your rescue is, the need is so great that the money never stretches far enough. Rescue Bank has helped us feed quality food to our rescues at a marginal cost... by helping us with food costs, we have more funds that can be allocated to taking in cases that might need extra medical help...”

- Dr. K. Lynch, Hootie’s Rescue Haven, MI

Supplies for Shelters
An outgrowth and expansion of our successful Rescue Bank program, Supplies for Shelters focuses on additional in-kind needs groups face as they rescue and rehome adoptable pets. Supplies for Shelters began in FY18.
During FY17-18, we traveled 66,352 miles for 21 projects in 8 states & Mexico.

Pictured: Rescue Rebuild’s founder Bryna Donnelly shows shelter dog Clifford how to have fun in the new outdoor play area built by Rescue Rebuild in 2017 at the Florida SPCA.

Helping 69,692 shelter pets.

Revitalizing Escambia Humane Society

The team set out to revamp this Florida shelter to make it warm and welcoming, boosting adoption rates and making life better for the residents there.

PBS was filming Rescue Rebuild for their “Shelter Me” program, and the to-do list at this shelter was long and challenging, but the community was ready to lend a hand! Several late nights and early mornings later, new larger play yards, a new “catio”, sound baffling in the kennels, fresh cheerful paint inside and out, new sun and rain protection, and a completely renovated lobby space transformed this formerly drab, uninviting space. More than 400 volunteers came out to show their support!
The Jackson Galaxy Project’s training and enrichment program for cats is designed to keep adoptable cats mentally and physically active in a shelter environment. The focus is on fun, positive reinforcement-based training sessions that help cats maintain their mojo and connect more quickly with potential adopters. From teaching high fives and head bumps, to “sit” and “come when called,” caregivers engage with cats in a way that enhances the human-animal bond, encourages interaction, and maintains adoptability.

Cat Pawsitive organizations come in all shapes and sizes, from small, foster-based rescues to large, open-admission shelters.

Pictured: Flicker, from the Philadelphia Animal Welfare Society, practicing his high five.
GreaterGood.org saves adoptable shelter pets with treatable medical conditions in danger of being euthanized for lack of medical funds. During FY17 and FY18, we funded the treatment of 69 animals (cats, dogs, birds, and even a ferret!)

**Mama Macy’s Story**

Just three-years-old, poor Macy came to the shelter with a bullet in her right hip, a shattered left hip from an old injury, and double ear infections. On top of that, she was pregnant. Macy would need an amputation, a bullet extraction, a c-section delivery, fluids, medications, and eventually spay/neuter surgeries for her and all her puppies.

A medical grant from GreaterGood.org allowed Macy to receive the life-saving multiple surgeries she desperately needed. Her shattered leg was amputated, and the bullet was removed from her other leg. She gave birth to six healthy puppies via emergency c-section, all of whom were spayed or neutered. Macy and all of her puppies were adopted and each have their own forever family.

**Emergency Animal Medical Cases**

A new signature program launched late in FY18, Safe Haven is a natural outgrowth of GreaterGood.org’s ongoing program activities and funding initiatives. The program provides pet-friendly housing options for at-risk people requiring either temporary emergency or long-term transitional housing with their furry family member.

Three previous projects in FY17-18 now fall under the Safe Haven program. 88 volunteers have already given 1,169 hours over 22 project days to renovate domestic violence shelters in Washington, Texas, and Missouri, with several renovations and builds coming up in FY19.
PROTECTING THE PLANET
CONSERVATION

GreaterGood.org runs three Signature Programs in conservation and supports best-in-class programs across 23 countries and 2 oceans. During FY17-18 we funded 32 partners on the ground working every day in conservation science.

From protecting jaguars through Project Wildcat to studying and protecting world-class biodiversity hotspots through Madrean Discovery Expeditions, GreaterGood.org is there for Planet Earth.

WHERE WE WORK

We work with environmentally-focused partners around the world in these areas: Argentina, Australia, Brazil, Cambodia, Cameroon, Chile, Costa Rica, Democratic Republic of Congo, Ecuador, Guatemala, Indonesia, Kenya, Malawi, Malaysia, Mexico, Mongolia, Nepal, Peru, South Africa, Thailand, Uganda, the United States of America, Vietnam, and the Atlantic and Pacific Oceans.
MDE works to explore, study, and protect the Madrean Archipelago, a series of unique ecosystems from New Mexico and Arizona to Mexico.

Throughout the year, groups of uniquely qualified, multinational participants come together to record the plants and animals of the vastly understudied region of Sonora, Mexico. This information is then stored in an open-source database for the world to share, study, and use to preserve these ecosystems.

Since the start of the program, five of the Sky Island regions are now protected.
We’re working with ranchers in Sonora, Mexico to protect the majestic jaguar and other endangered species. In partnership with Primero Conservation, Project Wildcat has established a 34,600-acre wildlife corridor in this critical region, allowing all predators (and prey) freedom to roam.

During FY17-18 (and continuing today), we introduced synchronized breeding practices that benefit ranchers who sign agreements not to kill jaguars or other big cats for preying on calves. Half of the cows are now synchronized, and by next year we will see at least 85% of all the cows synchronized with a goal of 100% by the following year.

Environmental education in PW targets public schools in the prime jaguar range in the Río Bavispe Valley and areas in which we wish to expand. Raising awareness about natural history, biodiversity, and predator protection in Sonoran Sky Island mountain ranges is an important part of conservation.
One Project Peril grant supported three Conservation Response Units (CRU) in Indonesia for three months. CRU teams guide wild elephants away from villages and farms and help stop human encroachment on remaining elephant habitat.

During these patrols, the CRU teams removed 35 snare traps, discovered and ended 2 incidents of illegal clearing/logging and illegal grazing. Concerted actions like these help secure safe habitat for Asian elephants, Sumatran tigers, Sumatran rhinos, tapir, pangolin, and hornbill, all endangered species in the region.

In partnership with the film Love & Bananas: An Elephant Story, GreaterGood.org also established the official Love & Bananas Fund to protect Asian elephants. Since its creation in 2018, we’ve rescued 3 captive Asian elephants like Fah Mui!

#### How We Spend Our Money

**FY18 Expenses: $52,092,180**

**97.4% Programatic Expenses**
In FY18, we spent $50,742,172 on our programs.

**1.4% Fundraising**
In FY18, we spent $710,118 on fundraising.

**1.2% Management & General**
In FY18, we spent $639,890 on management and general business expenses.
Our Special Donors

The work we do couldn’t be possible without the support of our donors. Thanks to YOU, our impact keeps growing, year after year. At this time, we’d like to recognize some of our special donors who are helping GreaterGood.org’s programs flourish and grow. A special thanks to:
